PROFILE

Second-year UBC Engineering Physics student with a strong foundation in mathematics, physics, and engineering problem-solving. Interested in applying software, analytical, and technical skills to solve complex challenges through both individual and collaborative work. Recognized for strong work ethic, excellent time management, the ability to adapt to new challenges and contribute to project success.

SKILLS

Software: Java, Python, MATLAB, JavaScript, HTML/CSS, GitHub, Google Workspace, Microsoft Office Suite

Hardware: Arduino, Circuit Analysis, Oscilloscopes, Soldering

Engineering: CAD (Fusion 360), Technical Drawings, Engineering Design Process

WORK EXPERIENCE

UBC Notetaker

January 2026 – April 2026

Vancouver, BC

- Delivered high-quality lecture notes for **MATH 101 Integral Calculus** and **MATH 152 Linear Algebra**, enabling a student with academic accommodations to fully engage with course material.
- Demonstrated reliability and time-management by submitting notes **within 24 hours** of lectures.
- Organized and communicated key course information, including announcements and deadlines, to support student success throughout the term.

Teaching Assistant

October 2023 – June 2025

The Chinese Academy, Calgary, AB

- Supported the learning of **100+ students** by providing individualized Chinese language practice and academic assistance.
- Assisted in delivering **IB Chinese as a Second Language** instruction for Grades 9–10 while supporting students across **Preschool to Grade 10** programs.
- Streamlined classroom operations by marking assignments, organizing weekly learning materials, and preparing educational activities.

Concession Worker at the Calgary Flames/Stampeders Games

December 2024 – June 2025

Calgary Sports and Entertainment Corporation, Calgary, AB

- Maintained inventory and restocked **4 cashier stations** throughout peak service periods, helping ensure uninterrupted service during events with **17 000+ attendees**.
- Operated concession equipment, including a popcorn machine for **5+ hours per shift**, while preparing additional food items and maintaining food safety standards.

EDUCATION

Engineering Physics, BSc. September 2025 – April 2030 (Expected)

University of British Columbia, Vancouver

Key Courses: Linear Circuits; Principles of Software Construction; Experimental Techniques

TINA SONG - ENGINEERING PHYSICS

VOLUNTEER EXPERIENCE

Sandstone MacEwan Community Volunteer

2016 – Present

Sandstone MacEwan Community Association, Calgary, AB

- Assisted with community events, including Movie in the Park and annual Community Clean-up initiatives
- Provided customer service while selling memberships and handling cash transactions at community events
- Supported event logistics by distributing compost and assisting residents during community programs
- Collaborated with volunteers to set up, operate, and clean up large-scale community events

Math Tutor

September 2024 – June 2025

John G. Diefenbaker High School, Calgary, AB

- Provided math tutoring to high school students, assisting with coursework and homework
- Explained mathematical concepts and problem-solving methods in clear, accessible ways
- Adapted explanations to students' individual areas of difficulty and learning needs

Girl Guides of Canada

June 2018 – August 2025

Calgary, AB

- Earned the **Canada Cord** and **Community Service Award** for sustained leadership and volunteer involvement
- Collaborated with team members to sell hundreds of boxes of cookies through community fundraising campaigns
- Mentored younger members through activities, outdoor programs, and bridging ceremonies
